

Software update instructions – v 2.8

The following procedure describes Woody in2it update from a previous version to version 2.8.

The new features, improvements and bug fixes are described in the corresponding release note.

Note for installation on Windows 7 or Windows 2008 Server

In case of installation of version 2.8 on Windows 7 or Windows 2008 Server, an error message can appear when launching the installer.

If it happens, please install the required Windows KB as described in this procedure : <http://support.woody-technologies.com/solution/articles/24000013495-installation-of-64-bits-version-of-woody-products-causes-error-on-some-operating-systems>

Update procedure

1. Stop Woody in2it through the contextual menu of the Woody in2it icon in the notification area (Windows systray).
2. Uninstall Woody in2it through Windows control panel.
3. Open Chromium web browser and purge cache (shortcut Ctrl+Shift+Del).
4. Rename the folder C:\ProgramData\Woody Technologies\Woody in2it, in case of rollback or to import profiles in the new version.
5. Install the new version of Woody in2it.

Update from version 2.6.x and later

Woody in2it profiles are compatible and can be imported in Woody in2it :

6. From the backup of the config folder (renamed at step no4), copy all *.profile files to C:\ProgramData\Woody Technologies\Woody in2it\config.
7. At the first start of Woody in2it, the browser opens on Profiles configuration tab. Click on the « Import profiles » button at the bottom of the page. Profiles are imported. By default, imported profiles are disabled. You can enable a profile by checkin the « Active » box at the top of the page.
8. Configure general settings of Woody in2it in the setup tab, in particular the number of simultaneous in2it streams.
9. In the Manager tab, don't forget to start all the components by the « Start » button of the first line.

Update from a version older than 2.6.x

Ingest profiles are not compatibles for versions older than 2.6.X.

In case of upgrade from a previous version, profiles has to be re-created after installation.

Do not hesitate to contact Woody Technologies support for any question or issue related to this update.
